- 2) The scoring area of the target face will be forty-eight inches in diameter. The target face is divided into five concentric color zones arranged from the center outward as follows: Gold (yellow), Red, Blue, Black, and White.
- 3) A scoring line, not more than one-tenth inch in width, shall be provided between scoring rings. This line shall be manufactured within the dimensions of the higher scoring area, and an arrow touching this line shall be scored as the higher scoring area.
- 4) Target face colors should be reasonably “dull” and “non-glaring” and conform as closely as possible to the following color code, as specified in the Munsell Color Charts. Colors are listed from the center out.

<u>color</u>	<u>hue</u>	<u>value</u>	<u>chroma</u>	<u>notation</u>

c. The Target Range:

- 1) The target field shall be laid out so that shooting is from the South to North when possible. A maximum deviation of 45% is allowed for local tournaments if required by terrain available.
- 2) The targets shall be equally spaced five plus or minus one yards apart (4 to 6 yards), measured from the center of the gold to the center of the gold of the adjacent target.
- 3) The center of the gold on the target face shall be mounted 51 inches from the ground. The target face shall be inclined away from the shooting line at an angle from 12 to 18 degrees from the vertical.
- 4) Range distances shall be accurately measured from a point on the ground perpendicular to the center of the gold on the target face to the shooting point.
- 5) Target lines and shooting lines, or range lines, shall be plainly and accurately marked on the ground, and shall be not more than 6 inches in width. Target lines or shooting lines may be arranged to require the shooters to move forward from the longest range to lesser distances while the targets remain stationary, or to require the target to be brought forward from longer to lesser distances while the shooter uses a stationary line.
- 6) Individual target lanes shall be suitable and plainly marked either by centerlines, or by lines designating the side boundaries of each lane. Pegs, chalk lines, trenches, or mowed strips are suitable markings. Local tournaments may deviate from this rule.
- 7) There shall be a minimum of 20 yards clear space behind the targets, which may be reduced by a suitable bunker or backstop. Spectators, participants, or pedestrians shall not be allowed behind the target while shooting is in progress, or even beyond 20 yards if there is the slightest possibility of being struck by the wildest arrow.

- 8) There shall be a clear area of at least 20 yards on each side of the field as a safety lane.
 - 9) Bow racks, tackle boxes, or other objects which protrude above the ground shall not be allowed within ten feet of the shooting line.
 - 10) At least every third target should have a small wind flag, of a size and color easily visible from the longest yard line, mounted at least two feet above the top of the target. Local tournaments may deviate from this rule. Target flags at Target/FITA tournaments will be standard to the whole field of play. Individuals may not put up their personal flags on the range.
 - 11) Staggered shooting lines, wherein one group of archers shoots from a position forward of another group, are considered unsafe. In an emergency, they may be used provided an unused lateral safety lane of at least 20 yards is maintained as a buffer.
- d. The Target Butt and Target Backstop:
- 1) The target backstop shall be of any suitable material that will not damage arrows or allow them to pass through or bounce out frequently.
 - 2) The target backstop shall not be less than 50 inches in diameter.
 - 3) Target backstops shall be securely anchored to the ground to prevent accidental toppling.
 - 4) Target identification shall be by means of numerals, at least eight inches high, on soft cardboard or other suitable material so as to be easily visible at the longest shooting distance and should be mounted near the base of the target.
- e. Shooting Positions:
- 1) The shooting area is an area starting at the shooting line and extending 10 feet to the rear, and which runs parallel to and adjacent to the shooting lines.
 - 2) An archer shall stand so that he has one foot on each side of the shooting line. He shall also stand 18 inches from the center of the target lane or 18 inches from the boundaries.
 - 3) Any archer may retire from the shooting line to avoid proximity to tackle or a shooting practice that he considers unsafe, and may resume shooting when safe conditions prevail.
 - 4) Archers may not shoot at varying distances from different shooting lines, nor engage in unauthorized practice, unless separated laterally by the width of at least four target lanes.
- f. Shooting Rules:
- 1) An end consists of six arrows shot at one time. Two shooters will be on the line at a time. FAA will use the AB/BA shooting line format.
 - 2) A completed end is that condition when all six arrows have been shot. A Field Official shall signal the finish of each end. Unless this signal is immediately challenged, the end shall be considered complete, and the archer shall have no recourse to shooting additional arrows.
 - 3) A perfect end is six arrows shot consecutively in the gold during one end.

- 4) Any kind of a bow may be used, providing it is shot by holding it in one hand and the string in the other, without mechanical assistance of support which in the opinion of the tournament officials would give undue advantage over other competitors.
- 5) Any kind of arrows may be used provided that they do not, in the opinion of the tournament officials, damage the target unreasonably.
- 6) Any type of point of aim may be used which does not protrude more than six inches above the ground and does not interfere with shooting or scoring.
- 7) An archer may not interrupt his shooting turn to use a spotting aid.
- 8) Foot markers may be left on the shooting line during the round provided they are embedded in the turf and do not extend more than one-half inch above the ground.
- 9) Ground quivers may be placed on the shooting line while the archer is in the process of shooting but must be removed to the tackle area while others are shooting and during the scoring interval.
- 10) Initial target assignments may be made according to any system designated by the tournament officials. There shall not be less than three nor more than five archers assigned to each target in use, and four is customary.
- 11) Archers shall be re-assigned targets after each round on the basis of their total score for rounds completed.
- 12) There shall be at least two uninterrupted practice ends, at the longest distance when starting a round and one practice end after a lengthy break.
- 13) There shall be no practice permitted after a postponement or delay unless such postponement or delay exceeds thirty minutes. In such cases the amount of practice shall be according to the following schedule: thirty to sixty minute delay, one practice end.
- 14) A blast of the whistle shall be the signal to commence or cease shooting for each end. Two or more signal blasts will indicate an immediate interruption of all shooting.
- 15) If archer shoots less than six arrows in one end, he may shoot the remaining arrows, if the omission is discovered before the end is officially completed, otherwise they shall be scored as misses.
- 16) If an archer shoots more than six arrows in one end, only the lowest six shall score.
- 17) Archers may not make up lost rounds, ends, or arrows except as specified.
- 18) If a target falls before an end is scored, that end shall be re-shot by all archers on that target.
- 19) Equipment failure: Shooters may take 45 minutes and shoot up to six practice arrows on assigned target at distance his or her group is shooting at. Ends or arrows missed may be made up at the end of the round.
- 20) Any archer should call to the attention of the Field Officials any rule infractions, non-sportsmanlike or unseemly conduct, or any safety hazards. The Field Officials may take such steps as their judgement indicates to correct the situation; including warning, scoring penalties, and even expulsion from the tournament in severe cases.

- 21) In all official shoots, ends shall be shot with half (or the closest possible number to half) of the archers assigned to each target shooting at a time. They shall then retire and the remaining archers assigned shall shoot their arrows.
- 22) Tie scores shall be resolved in favor of the archer with the most "X" ring hits. If "X" totals are tied as well, then total "10" scores, then total "9" scores, etc.
- 23) Coaching an archer on the shooting line by means of inaudible and inconspicuous signs or symbols is permitted, providing that such coaching is not distracting to other contestants. If a contestant on the same target, or on an adjacent target, complains that such activity is personally distracting, such coaching must be terminated immediately. Audible coaching of archers on the shooting line is not permitted.

g. Scoring:

- 1) Arrows in the standard target face shall be evaluated as follows: Gold-9, Red-7, Blue-5, Black-3, and White-1.
 - 2) If an arrow in the target touches two colors or touches the black scoring line, the higher color shall count. Doubtful arrows must be determined for each end before the arrows or target face has been touched, otherwise the lower value must be taken.
 - 3) An arrow that has passed through or bounced out shall be shot over.
 - 4) An arrow embedded in another arrow on the scoring face shall score the same as the arrow in which it is embedded.
 - 5) Hits on the wrong target shall score as misses.
 - 6) The archer chosen to pull the arrows from the target, normally the first in order of assignment, shall be the target captain and shall rule all questions on his target subject to appeal to the Field Officials.
 - 7) The target captain shall call the value of each arrow, and it shall then be recorded independently by two contestants acting as scorers, normally the next two assigned to the target. Scorers should check results after each end to avoid errors.
 - 8) Each archer is individually responsible for seeing that his arrows are called correctly and properly entered on the score cards, and that his score cards are turned in to the proper officials.
 - 9) The range captain may direct a mandatory center-spot replacement at his discretion and direction in order to maintain scoring capability.
- h. 900 Round: The difference between the 810 Round and the 900 Round is the method of scoring. Item g, 1) above will change to read as follows: Arrows in the standard target face shall be evaluated as follows: Inner gold-10, outer gold-9, inner red-8, outer red-7, inner blue-6, outer blue-5, inner black-4, outer black-3, inner white-2, and outer white-1.
- i. 600 Round: The difference between the 900 round and the 600 round is the number of arrows shot. In the 600 Round, four ends of five arrows each are shot for a total of 20 arrows at each distance. Scoring shall be the same as the 900 round.

- j. Field Officials: The Field Officials shall be the Tournament Director, Field Captain, and assistants.
17. 3-D TOURNAMENT RULES: FAA will use the NFAA 3-D Rules. The course shall be 20 targets. Marked or unmarked distances. Shoot two rounds Saturday and one round Sunday.
- a. FAA will use the offset 12, lower in the morning and upper in the afternoon, at FAA 3-D Championships.
 - b. A known distance class will be available at FAA unmarked 3-D events. One male and one female division, regardless of style, using own range finder and grouped separately from other archers.

ARTICLE XIX -- MEMBERSHIP/HANDICAP CARDS

1. Membership/Handicap Cards will be issued to members of NFAA and/or NAA.
2. The Club Secretary may collect FAA/NFAA dues and send them to the FAA Secretary/Treasurer with appropriate membership information.
3. Archers are responsible for placing their tournament scores on the NFAA Handicap Card. Clubs are responsible for insuring that all competitors are members of FAA.
4. Handicap cards shall expire at the same time membership expires, as listed at the upper right of the card. New cards will be issued upon payment of FAA/NFAA dues.
5. NFAA or NAA membership cards will be SHOWN to the Tournament Chairman at the beginning of each registered tournament.
6. Archers may purchase (cost \$0.50) a replacement for a lost handicap card from the FAA Secretary/Treasurer. Archers will shoot in the highest class, against the top archers, until a new card is issued.
7. Only the first twenty-eight Field/Hunter targets will be used to handicap when forty-two targets are shot. Only the first twenty targets will be used when thirty targets International are shot.
8. When a permanent card is received from NFAA or the FAA Secretary, the archer will annotate all interim scores to the permanent handicap card.

ARTICLE XX -- FAA SCHEDULE AND REGIONAL COMPETITION

1. All participants in registered invitational shoots will be members of the NFAA. Clubs may allow local club members to attend one local registered invitational tournament before requiring NFAA membership. Clubs not complying are subject to on the spot revocation of their range certification by any attending FAA officer.
2. Clubs with shoots on the FAA schedule must have a competitive round (28 Field, 28 Hunter, 28 Hunter/Field, 20 International, Indoor Round, NFAA Animal Round, Target Rounds, and 3-D Round) for one shoot each year. Competitive round shoots will have priority in FAA Scheduling.
3. All Indoor shoots to be published on the Regional Sanctioned Schedule will be requested through the Regional Vice President. Scheduled shoots held indoors require official NFAA or NAA faces, and the range must be inspected and approved prior to the shoot.

4. Club shoots are shoots conducted on club ranges without conflicting with regional sanctioned shoots held in the club's area. Club members and non-club members may participate. Club shoots will not be advertised to other clubs and/or their members.
5. Regional Sanctioned Shoots:
 - a. Regional sanctioned shoots are any scheduled shoots in which FAA/NFAA/NAA Constitution, By Laws and Rules cover the event.
 - b. All requested regional sanctioned shoots for the year's schedule will be submitted to the regional vice president prior to October 1, or at the vice president's request, prior to the year being scheduled. (1 January through 31 December)
 - c. Regional vice presidents will make selection of dates and shoots as close as possible to dates and shoots requested by clubs.
 - d. Preference of schedule by vice presidents will be given to the type of shoot leading up to the next State Championship.
 - e. No regional sanctioned shoot will be conducted without the approval of the regional vice president. Shoots conducted by clubs that do not follow NFAA/NFAA/NAA rules and are not leading up to a state championship could result in loss of charter and insurance if purchased through NFAA.
6. Any other shoot a chartered club desires to conduct will follow the guidelines of a regional sanctioned shoot and will be pre-approved by the regional vice president.
7. Clubs may host other events on weekends when a state or higher level event is being held in Florida so long as that club is over 200 miles from the major event.
8. Club renewal of charter will be sent through the FAA Secretary.

ARTICLE XXI -- SANCTIONED COMPETITION RULES

1. Shoots will start at 9:30 AM unless otherwise posted on the FAA Schedule.
2. Shooting fees at NFAA/FAA sanctioned tournaments will be \$10.00 for adults and \$7.00 for ages 14 and below. For 3-D and Target these fees will be \$15.00 for adults and \$10 for ages 14 and below.
3. Shooting fees at NFAA/FAA Regional Championships will be \$15.00 for adults and \$10.00 for ages 14 and below. For 3-D and Target these fees will be \$20.00 for adults and \$15.00 for ages 14 and below.
4. Clubs must either: (1) Provide awards (trophies, plaques, or cash) for all styles, with classes optional; or (2) Flight all competitors by scores regardless of style after the morning round and provide awards for all flights. If the awards are in the form of cash, the club must furnish trophies or plaques for cub, you, young adult, or olympic style winners. Cash awards must total at least 50% of the adult entry fees collected. Archers must complete the entire course of shooting to receive an award.
5. NFAA cards must be shown as you register or other proof of current FAA membership.
6. Only FAA/NFAA or NAA members may compete for awards.
7. Regional Championships will say "Regional Championship" on the award.

8. "F" will be placed on the schedule in the Release to indicate food for sale by the club at scheduled shoots.
9. No alcoholic beverages are allowed on the shooting ranges.
10. All scores shot must be shot on the scheduled day and at the scheduled site of the tournament.
11. All sanctioned tournaments will list the round to be shot on the schedule in the Release.
12. Host club officials will enforce equipment and shooting rules.
13. An announcement will be made at each shoot relative to the responsibility for recording scores on handicap cards.
14. Regional Championship awards may only be presented to archers in that region. Others will shoot as guests.

ARTICLE XXII -- INVITATIONAL BROADHEAD TOURNAMENT RULES

FAA Broadhead Rules shall be the same as 3-D Rules except as follows:

1. All archers must use non-altered, commercially manufactured broadheads that conform to state hunting regulations. All shooters will have broadheads not less than 7/8". Youth and cubs may shoot field points.
2. Any weight or style broadhead that meets the measurement requirements is legal so long as the tournament director feels that it does not unduly tear up the targets.
3. The broadheads may be the screw in or glue on type.
4. Witnessed bounce outs believed to have hit the target in the scoring area must be re-shot.
5. Arrows passing through the face, but still in the butt or target backing, may be pushed back and scored as hits in the circles through which they were shot. This does not mean that they may be withdrawn and then stuck back through the target.
6. An arrow that strikes another arrow or arrows in the target and glances off will be scored where it lies.
7. Unsuspected passthroughs: In any instance where arrows are found to have obviously passed through in such a manner they cannot be properly scored and their location and the condition of the butt or target backing convince the archer's group that the arrows did indeed passthrough a scoring area, the archer may return and re-shoot from the obvious distance or the furthest distance involved.
8. Off-ground skids or glances into the target shall not be scored.
9. An archer who shoots more than the prescribed number of arrows shall lose the arrow or arrows of higher value.
10. If an archer does not shoot enough arrows before advancing to the target, the archer may not return and shoot the remaining arrow or arrows. However, it is legal to return to the shooting stake before the group starts to walk forward to score the target.
11. If there is more than one target to shoot, the archer may shoot the target of his or her choice.
12. Arrow shafts, as they lie in a target, must touch the dividing line to receive the higher score.

13. An archer must touch the shooting stake with some part of the body on every shot so the shooting stakes and shooting lanes must accommodate shots of both right and left hand archers of any size equally. It is legal to stand or stretch forward of the shooting stake.
14. Any person found moving a shooting stake will be disqualified.
15. There may be more than one shooting stake at a target. The stake at the longest distance will be shot first. An arrow must be shot from each stake. However, stakes must be in line to the target so as not to damage arrows by shooting broadheads at different angles to the target.
16. No shooting stake will be laid out where it will be dangerous for an archer or archer's bow or any other person on the range.
17. The shooting lanes must be cleared for clean, non-interference shots for any arc of an arrow, for all archers, but not necessarily to the ground.
18. An arrow that strikes vegetation on the target is a shot arrow if the arrow path to the kill area of the target is sufficient for a good shot. However, if vegetation has fallen into the previously clear shooting lane blocking a clear shot by anyone, it may be removed.
19. Targets will be of animals, commercially made or made by the club. All targets will have clearly marked kill and wound areas. No matter how thin or wide the lines drawn, arrow shafts need only touch the line to count higher scoring area.
20. "Surprise" kill area targets will not be used in sanctioned tournaments except as a novelty feature before or after the regular tournament is over. A surprise kill area target is one that has a small kill area drawn in unlikely kill zones and is not definable from the shooting stakes.
21. Scoring will be 10 points for a kill and 5 points for a wound. All other areas outside the wound zone will be of no value.
